www.bethdamato.com

Supportive and enthusiastic software engineer interested in collaborating with like-minded team members to develop quality applications, implement comprehensive testing strategies, and assist in the timely completion of projects. I offer my strong communication skills and professional acumen, and value mentoring environments to promote team and personal development.

TECHNICAL TOOLS

JavaScript, React.js, Redux, RESTful APIs, HTML/CSS, Node.js, Python, Apache Cassandra, CQL, PostgreSQL, AWS Cloud Microservices (EC2, Route 53, DynamoDB, Lambda), Kanban/XP/Scrum Agile, Splunk, Git, Jenkins, Circle CI

PROFESSIONAL EXPERIENCE

COX AUTOMOTIVE - Atlanta, GA Aug 2019 - present
(contractor)
Software Support Engineer - Manheim

As part of the Owner Solutions team, cooperate effectively with field representatives and external customers to resolve technical problems relating to the Manheim Express, sell-side, desktop and mobile applications.

- Engage closely with all Manheim development teams to identify potential engineering issues during software implementation, function, and upgrades. Deployed local environment for unit testing and collaborated with Owner Solutions programmers to implement bug fixes.
- Strong verbal and written communication skills, excellent retention of knowledge for new technology and product -- able to provide/implement programming solutions.
- Assist Quality Assurance with unit, integration, and regression tests on enhancements and applications to ensure company quality standards are met.
- Help maintain and deploy multiple beta, integration, and production environment builds.

DATASTAX - Atlanta, GA Dec 2018 - July 2019
(force reduction mid-2019)
Associate Solutions Engineer - Vanguard, Pre-Sales

Planned, created and implemented engaging, front-end demonstrations in React, Redux, and Apache Cassandra (DSE) to showcase best practices around design and adoption of Cassandra database solutions.

- Collaborated with senior team members to qualify demo requirements and prospect/customer needs, effectively illustrating the company's ability to meet those needs.
- Customized and adapted demo presentations for both small and large audiences, and for audiences with differing levels of technical experience.
- Solid understanding of system architecture and software design principles.
- Attained Agile Certified Scrum Master (CSM) credentials.

DIGITALCRAFTS - Atlanta, GA Sep 2018 - Dec 2019
(contractor)
Developer-In-Residence/TA/Mentor

- Worked closely with the cohort instructor to help convey programming fundamentals to students.
- Held office hours after class to assist students with questions and work through syntax/logic problems.
- Represented the company in the community by attending meetings and lectures, posting relevant blog articles, and exchanging best practices. Conducted webinars on the latest web technology topics.

various companies Aug 1994 - Apr 2018
(career pivot in 2018)
Senior Executive Assistant

Demonstrated capacity to provide comprehensive support for executive-level management, excelling at exceptional customer service. Continuously improved procedures and met demanding deadlines while maintaining confidentiality and the highest ethical standards. Highly-focused and results-oriented in supporting complex, deadline-driven projects. Able to identify goals and priorities and strategically resolve issues.

EDUCATION

DigitalCrafts - Atlanta, GA
Full-Stack Web Development

University of Kansas - Lawrence, KS
Bachelor of Arts, Theatre & Film
