DigitalCrafts | April 2018 - August 2018
Full-Stack Web Development

University of Kansas
Bachelor of Arts, Theatre & Film

SKILLS

HTML5	Express
CSS5	React/Redux
JavaScript	AWS - EC2
Python	Git
Node.js	PostgreSQL
Docker	Apache Cassandra

CERTIFICATIONS

Certified Scrum Master (CSM)
ICAgile Certified Professional (ICP)
Apache Cassandra Developer (*in progress*)

FEATURED PROJECTS

GEOFINDER DEMO | <https://github.com/badamato/dse-geofinder>

- This DataStax application demonstrates the company's DSE Search product in a geospatial application. DSE Search is a high-performance, real-time live indexing engine integrated with Apache Cassandra allowing users to quickly find data using complex, substring, and full-text search queries.
- The front-end UI was created using React, Redux, and Material-UI.

DSE UPTIME DEMO | <https://github.com/russkatz/dse-uptime-demo>

- This DataStax application demonstrates the company's technology for being an always-on, distributed cloud database. As an alternative to showcasing the technology from DataStax's OpsCenter interface, I prepared an alternative view for both technical and non-technical audiences in order to fully visualize the unique capabilities.
- The front-end UI was created using React, Redux, and Material-UI.

SHAKEDOWN | www.gearshakedown.net

- Shakedown assists hiking enthusiasts by determining appropriate pack weight or taking inventory of their existing existing gear.
- Built with React, Node.js, Express, PostgreSQL, Bootstrap, Bcrypt Hash, AWS

EXPERIENCE

Assoc. Solutions Engineer | DataStax, Atlanta GA

December 2018 - present

- As part of the customer-facing Vanguard pre-sales team, help build front-end demos that showcase best practices around design and adoption of Apache Cassandra database solutions
- Work with senior team members to qualify demonstration requirements and prospect/customer needs, and effectively illustrate the company's ability to meet those needs

Developer-In-Residence | DigitalCrafts, Atlanta GA

September 2018 - December 2018

- Work closely with the cohort instructor to help convey programming fundamentals to students
- Hold office hours after class to assist students with questions and work through problems
- Conduct webinars on relevant coding topics
- Represent DigitalCrafts in the community by attending meetings/lectures, posting relevant blog articles, and exchanging best practices

Executive Assistant

August 1994 - April 2018

- Over 24 years of senior administrative experience in the media, financial, and management consulting industries
